

SURYA S

MERN FULL STACK DEVELOPER

Chennai, Tamil Nadu | +91 7868943703 | suryazzx6@gmail.com | linkedin.com/in/surya-s-132356357 | github.com/Surya50

PROFESSIONAL SUMMARY

Motivated **MERN Full Stack Developer** skilled in building responsive, scalable, and secure web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in designing full-stack software architectures, managing database operations, and crafting cross-platform mobile user interface experiences with React Native. Passionate about solving complex software engineering challenges, writing clean maintainable code, and mastering modern technologies.

TECHNICAL SKILLS

Frontend & Mobile: HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Tailwind CSS, Bootstrap
Backend & DB: Node.js, Express.js, REST API Development, Python (Fundamentals & OOPs), MongoDB, SQL
Security & Tools: JWT Authentication, bcrypt, Socket.io, Git, GitHub, VS Code, Postman, MongoDB Compass, Cloudinary

EXPERIENCE & TRAINING

MERN Full Stack Web Development Trainee September 2025 – March 2026

- Completed 6 months of intensive full-stack development training at a professional institute, building full-featured web applications using React.js, Node.js, and MongoDB.
- Gained hands-on practical experience by architecting real-world full-stack projects with secure user authentication, data authorization, and database connectivity.
- Collaborated on software design patterns, implemented version control workflows with Git/GitHub, and optimized frontend performance and user experience.

PROJECTS

Task Tracker – Office Management & Real-Time Collaboration Tool July 2026

Tech Stack: React.js, MongoDB, Express.js, Node.js, Socket.io, JWT, bcrypt, Tailwind CSS

- Developed full-stack office productivity software featuring dedicated administrator and employee dashboards for workflow management.
- Integrated Socket.io to enable real-time, bi-directional communication channels between employees and staff for daily reports and task tracking.

Close Connect – Private Real-Time Chat Application June 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, bcrypt, Tailwind CSS

- Engineered a secure instant messaging system with one-to-one chat channels, live online status indicators, and encrypted user data handling.
- Stored messaging histories inside isolated MongoDB collections and integrated bcrypt and JWT to safeguard authorization layers.

Family Vault – Secure Document Management System May 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Cloudinary API, JWT, bcrypt, Tailwind CSS

- Architected a cloud document storage engine enabling users to securely upload, organize, and manage files using Cloudinary integration.
- Implemented multi-tier user authorization parameters and responsive dashboard UI to perform full CRUD operations seamlessly.

Survival – API Based Web Application September 2025

Tech Stack: React.js, JavaScript (ES6+), External REST API, Tailwind CSS, CSS3

- Created a dynamic web app utilizing third-party REST APIs to fetch and display real-time asset data feeds on custom UI components.
- Optimized application speed, component loading states, cross-browser compatibility, and modular state management workflows.

EDUCATION

Karan Arts and Science College – Bachelor of Computer Applications (BCA) 2022 – 2025

Thiruvalluvar University, Vellore | Tiruvannamalai, Tamil Nadu • **CGPA: 7.8**
