

SURYA S

MERN FULL STACK DEVELOPER

Chennai, Tamil Nadu | +91 7868943703 | suryazxz6@gmail.com | linkedin.com/in/surya-s-132356357 | github.com/Surya50

PROFESSIONAL SUMMARY

Motivated and enthusiastic MERN Full Stack Developer (Fresher) with hands-on experience in building responsive and secure web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, implementing user authentication with JWT and bcrypt, managing MongoDB databases, and creating modern, responsive user interfaces using React.js and Tailwind CSS. Strong problem-solving abilities, eagerness to learn new technologies, and commitment to writing clean, maintainable code while contributing effectively in collaborative development environments.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, Mongoose

Authentication & Security: JWT Authentication, bcrypt Password Encryption

Real-Time Communication: Socket.io

Developer Tools: Git, GitHub, VS Code, Postman, MongoDB Compass, Cloudinary, npm

EDUCATION

Karan Arts and Science College – Bachelor of Computer Applications (BCA) (CGPA: 7.8) **2022 – 2025**
Tiruvannamalai, Tamil Nadu

Mary Immaculate Heart Matric Higher Secondary School – Higher Secondary Certificate (HSC) (Percentage: 78%) **2022**
Tiruvannamalai, Tamil Nadu

Mary Immaculate Heart Matric Higher Secondary School – Secondary School Leaving Certificate (SSLC) (Percentage: 80%) **2020**
Tiruvannamalai, Tamil Nadu

EXPERIENCE & TRAINING

MERN Full Stack Web Development Trainee **September 2025 – March 2026**

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built secure RESTful APIs following modern development practices and implemented CRUD operations with Mongoose.
- Developed secure authentication and authorization using JWT and bcrypt, and verified APIs using Postman.

PROJECTS

RentRide – Car Rental Web Application | React.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, JWT **Feb 2026**

- Developed a responsive car rental platform for browsing and booking vehicles with full CRUD workflows.
- Built secure user authentication using JWT and integrated MongoDB using Mongoose for data management.
- Designed a modern responsive user interface using Tailwind CSS and tested backend APIs using Postman.

Survival – API Based Web Application | React.js, JavaScript, REST API, CSS3 **Sept 2025**

- Developed a dynamic application utilizing external REST APIs to render real-time asset tracking data feeds.
- Created reusable React components with clean error handling boundaries and modern layout viewports.
- Optimized application performance, user experience, loading states, and cross-browser loading configurations.

Family Vault – Secure Document Management System | React.js, Node.js, Express.js, MongoDB, Cloudinary, JWT, bcrypt **May 2026**

- Developed a secure document management system for storing records using Cloudinary storage engines.
- Implemented multi-tier user access control parameters using secure routing structures and JWT tokens.
- Designed a responsive dashboard with React.js and Tailwind CSS for complete document CRUD operations.

Close Connect – Private Real-Time Chat Application | React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, bcrypt **Jun 2026**

- Developed a secure private real-time chat application with one-to-one messaging channels powered by Socket.io.
- Stored messaging histories securely inside isolated collections using MongoDB and handled encryption via bcrypt.
- Displayed online/offline user status with message timestamps on a responsive interface optimized with Tailwind CSS.
